February 9, 2015

Dear Businesses and Community Partners,

Please be notified pursuant to NRS 237.080, that the Clark County Board of Commissioners has proposed rule changes to Clark County Code, Title 10, Chapters 10.04, 10.08, 10.12, 10.20, 10.24, 10.28, 10.30, 10.32, and 10.36 to change provisions related to the governance of animals in the unincorporated areas of Clark County. The amendments are available online as well as enclosed with this letter.

Specifically, the proposed amendments to Title 10 will change the posting requirements related to animal tagging, vaccination, and sterilization. There will be new requirements for those who own potbelly pigs and/or pet rabbits in regards to sterilization and tagging. Finally, the proposed changes involve new stipulations for breeder /show permits as well as new regulations related to the impoundment of animals and the disposal of dead animals.

In accordance with NRS 237.080, business owners and interested parties may submit comments, data, and arguments to the Clark County Board of Commissioners, in care of the Department of Administrative Services, as to whether the proposed amendments will:

- 1) Impose a direct and significant economic burden upon a business; or
- 2) Directly restrict the formation, operation or expansion of business.

We ask that you notify the members of your organization and/or association that are located in the unincorporated areas of Clark County that are affected by these amendments as well as those who could be affected by the proposed changes regarding breeding and show permits. With the notification, we ask that you include the public notice and the amendments enclosed with this letter to allow them to submit comments, data, or arguments. The deadline to submit responses in writing is March 6, 2015 by 5:00pm.

If you have any questions about the proposed changes to Title 10 of Clark County Code, please do not hesitate to contact me.

Sincerely,

Jason Allswang
Code Enforcement Administrator
